

MUST HAVE FAITH IN GOD ALMIGHTY

President Krueger Sends an Appeal to the Troops at the Front.

FIGHT TO BITTER END

Boers Making Preparations for a Last Desperate Stand Against the British.

Force of 4,000 Men Sent Out From Ladysmith in the Hope of Being Able to Cut Off Burghers Retreat—Enthusiastic Pro-Boer Meeting Held in New York City—England Scored by W. Bourke Cochran—Princess Salm-Salm Will Start an Ambulance Corps.

Lorenzo Marques, March 5.—[Special Cablegram]—Rumors here vary from proposals of peace to preparations for the last desperate stand on the part of the Boers. President Krueger has telegraphed an appeal to the front calling on the troops. "Stand fast and strive in the faith of the Lord" for unless they had faith in Him, cowardice would set in and their position would be hopeless the moment they turned their backs to the enemy.

To Cut Off Boer Retreat. Ladysmith, March 5.—[Special Cablegram]—A force of 4000 men has left here in the direction of Elandslaagte in the hope of cutting off the Boer retreat.

A force reconnoitering north of Ladysmith since Thursday returned to Ladysmith this evening. One member of the Gordon Highlanders was killed and Col. Pickford wounded.

No News from Roberts. London, March 5.—[Special Cablegram]—Up to a late hour this afternoon Gen. Roberts' movements were still wrapped in mystery. Neither official nor press dispatches throw any light on his whereabouts. There is a lack of information from the theatre of war, and while the silence is not looked upon as forbidding any great event, it is believed some interesting news will be received from the front shortly.

BRITISH CAUSE IS SCORED. Enthusiastic Pro-Boer Meeting Is Held in New York City.

New York, March 5.—In honor of the 122d anniversary of the birth of Robert Emmet the United Clan-na-Gael held a pro-Boer and anti-British meeting at the Academy of Music Sunday night. The speakers, Recorder John W. Goff, who presided, and W. Bourke Cochran, warmly espoused the cause of the Boers and denounced the British, to the vast delight of an audience that packed the academy from orchestra to roof. Not content with attacking England, Mr. Cochran made a bitter onslaught upon the administration, declaring that the president and his advisers had surrendered the interests of this country to Great Britain, and that if they had done their duty in the matter of the Alaskan boundary dispute England would have had her hands so full on this continent that she would not have been able to wage any war in South Africa. The only features of the program that did not concern themselves chiefly with the affairs of the Transvaal were the songs. Mr. Cochran was cheered when he came forward. After a brief introduction, in which he referred to the character of Robert Emmet, he said:

"Recent events in a distant part of the world seem to show that Providence is moving in a mysterious way to bring about its just ends. It is the duty of every Irishman, of every American, of every upholder of justice and civilization to condemn the ignoble course of England in this war. (Loud cheers.) Yet they tell us that the Boers must be defeated in the interests of civilization; that they are an uncivilized race. Why is this said of them? Is it because they carry on an effective government at the lowest rate of taxation known? Is it because in their country education is universal, drunkenness is unknown, divorce doesn't exist, and every man lives with his own wife? I can understand a country owning a smart set thinking that nation uncivilized which doesn't support a divorce court. I would not deny to that set the right to life, liberty and the pursuit of smartness, but I would have them see that though the Boers have not evening dress they have evening prayers, and though they fear God the fear of man is not in them. (Cheers.)

London, March 5.—Lord Curzon, viceroy of India, cables regarding the famine

in that country that there is no change of any importance in the situation. The famine is still spreading and relief work is commencing in Madras. It is reported that the outlook is very gloomy. Lord Curzon gives a total of 4,374,000 persons receiving relief daily from the government.

TIRE OF EATING COOKED DOG

Otoe Indians Resolve to Attend no More Iowa Feasts

Perry, Ok., March 5.—The Otoe and Iowa tribes of Indians have broken off all relations and friendship and from this time on declare they will not visit with one another. It is all due to the eating of dog meat by the Iowa tribe.

During their quarterly feasts the Iowa Indians slaughtered hundreds of fat dogs and fed the meat to their guests and ate it themselves. The Otoes have become disgusted with eating dog meat and they told the Iowas they would not appear at their feasts again if any more such meat was served to them.

The Iowas replied that their fathers had feasted on dog meat and that they were true to the tradition of their fathers, so relations between the two bands have been broken and no more visiting with each other will take place.

FINDS LONG LOST MOTHER

William Himes In Jail Is Helped In Almost Hopeless Search.

Milwaukee, Wis., March 5.—Through a sentence in the House of Correction William Himes found his mother, for whom he has searched years, and has cleared the mystery of his life.

Himes is 20 years of age. When four years old his father died and he and his sister were sent to the state school at Sparta, as his mother was poor.

When ten years old he was adopted by a farmer, but ran away after a few months and worked on farms through the state.

A few years ago he came here in search of his mother. He finally drifted into the life of a tramp, and two weeks ago was sent to the House of Correction. There he met a prisoner named Arthur Ziegler, who had known Himes' mother, whom he found yesterday. Today she identified him.

An application for a pardon has been made and Himes in a few days, it is thought, will be released.

INDICATIVE OF PAGAN SPIRIT

Cleveland Priest On the Plays "Sapho" and "The Degenerates."

Cleveland, March 5.—Rev. George Vahay, pastor of St. John's cathedral, in the course of a Lenten sermon in that church yesterday morning said that the plays of "Sapho," "The Degenerates" and others of a similar character are indicative of a pagan spirit throughout the country. He said that the ultimate effect of such plays is to increase immorality and to destroy virtue and innocence.

Father Vahay said that, inasmuch as the immigration laws bar the physical loper from the United States, they should be framed so as to bar the actress from abroad who comes to this country with her immoral plays, the effect of which is to spread spiritual leprosy.

He urged his people to remain away from the theater during the performance of questionable plays.

CIGAR MEN GET INTO QUARREL

Raising of the Price of Boxes Causes Protest by Manufacturers

Tampa, Fla., March 5.—Trouble has arisen between the cigar and box manufacturers of this city. A few days ago the latter issued a circular giving notice of an advance in the prices. The cigar manufacturers protested, but to no avail. They have now organized a company with ample capital and propose to establish and operate a factory themselves.

The box factories now in operation have a capacity of 8,000 boxes a day, which is inadequate to the demands of the cigar manufacturers. The latter, therefore, intend to operate a factory that will turn out not less than 25,000 boxes a day and thus render themselves independent of any outside concern.

POLITICAL CONTEST IN THE CREAM CITY

MILWAUKEE MUNICIPAL CAMPAIGN WILL BE A SCORCHER.

Preliminary Skirmishes Take Place During the Ensuing Week—Baumgartner Leads For Republicans and Rose For Democratic Mayoralty Nomination—Affairs Complicated.

Milwaukee, March 5.—The decision of the supreme court of this state, handed down last Tuesday, which declares that the lower court erred in judging the mayor and the majority of the city council in contempt for proceeding to pass the much-talked-of street railway franchise an injunctive order, claimed by the administration to be without warrant, has cleared the political atmosphere and made plain the lines upon which the battle for political supremacy will be fought on election day, April 3, this year.

Mayor David S. Rose will be the choice of the democrats, aided by those republicans and independents who believe that the street railway matter was wisely and sensibly settled.

Henry J. Baumgartner, ex president of the common council and the unsuccessful candidate for the republican nomination, the leader of the bolting republicans in 1898, will probably be the republican candidate in opposition to Mayor Rose. Mr. Baumgartner is the representative of those who oppose the ordinance. His nomination will be fought before and in the convention by the other branch of the republican party led by Wade H. Richardson, candidate for the head of the ticket.

The preliminary skirmishes in the municipal campaign will begin this week.

The Boards of Registry in the several precincts of the city will hold their first meeting for the purpose of revising the registry lists tomorrow and Wednesday. The People's party will follow with their preliminary Saturday, March 10. On that date the democratic caucuses will be held for the election of delegates to the city and judicial conventions and for the nomination of aldermen and supervisors in this city, and town and village officers in the county at large outside the city. The Democratic city convention will be held Monday, March 12 and the People's party convention Friday, March 16.

Promises To Be a Busy Week

The republicans will begin setting the election machinery in motion next week. The preliminary meetings will be held Monday, March 12, the caucuses on the Friday following, and the city and judicial conventions on Monday, March 19.

The present week, therefore, promises to be a busy one in political circles, as all of the leading parties will be preparing for the struggle upon the floor of their respective conventions. The greatest contest will of course be in the republican city and judicial conventions. Joseph G. Donnelly seems to be the only democrat in the field for the party nomination for county judge.

AN ARCHBISHOP DEAD

John Hennessey, Beloved Primate of Dubuque, Passed Away There Yesterday.

Dubuque, Iowa, March 5.—Archbishop Hennessey died at 2:30 o'clock yesterday afternoon. The death of the beloved prelate was announced by the tolling of the cathedral bell. Archbishop Ryan of Philadelphia arrived in the morning, to find that his old friend had not spoken since the previous evening, and was unable to recognize him. As the hour of death drew near he, on bended knees and with faltering voice, recited the litany for a departing soul, to which responses came from those assembled—Messieurs Ryan, Archbishop Hennessey's brother, sister, and two nieces, the priests of the cathedral, and the sisters of St. Francis, who pressed a cross to the dying prelate's lips.

Archbishop Ryan will preach at the funeral tomorrow. The archbishop's council decided on interment beneath the cathedral altar, where Bishops Loras and Smyth were buried. The archbishop sustained a stroke of cerebral apoplexy a year ago and went to Ireland in June, expecting that the second stroke would come upon him during his visit to his birthplace. However, his health improved and he was strong until a month ago. The second attack came three weeks ago. It was regarded as the beginning of the end, and the succession was openly discussed in the press.

Archbishop Dean of the Catholic university, Bishop Linehan of Cheyenne, and the Rev. Dr. John Carroll of St. Joseph's college, Dubuque, are considered possible successors. Vicar General Ryan will administer the archdiocese pending a choice. That the archdiocese will be divided and the see of Sioux City created is considered probable.

Benjamin G. Paddock Dead

Barnaboo, Wis., March 5.—Benjamin G. Paddock, a pioneer of Sauk county, and a well known business man of La Valle, died yesterday aged 71 years. He was appointed postmaster at Ironton by President Buchanan and held the position many years. He was elected sheriff of Sauk county in 1870 and was postmaster of La Valle at the time of his death.

ADMIT NEW MEXICO INTO THE UNION

DELEGATION AT WASHINGTON WORKING UP THE SCHEME.

Claims of the Territory in Its Demand For Admission—Status of the Porto Rican Bill—Want to Delay Canal Bill—Postal Legislation—Washington News.

Washington, D. C., March 5.—Considerable quiet work is being done to secure action at this session upon the bill to admit New Mexico into the union. A formidable array of residents of that territory has reached Washington, including Judge John R. McKie, United States judge at Santa Fe. In discussing the claims of his territory for statehood, Judge McKie said:

"We have more than 200,000 people in the territory, and we possess all the material elements that entitle us to statehood. There is a general impression, especially among capitalists, that a territorial form of government is not sufficiently strong to warrant investments. We need capital from the outside to develop our resources, which are very great. Our sheep and cattle industry is very extensive, the territory having now between 3,000,000 and 4,000,000 sheep."

Status of Porto Rican Bill

Senator Foraker, in charge of the Porto Rican bill, says that measure will not be taken up for consideration until after the financial bill is disposed of. Debate may not commence upon it, therefore, until Tuesday or Wednesday, and under the etiquette observed, may continue indefinitely. It is expected, however, that the democrats, realizing the necessity for some action for the relief of the Porto Ricans, will not resort to filibustering tactics.

Want to Delay Canal Bill

It seems to be the purpose of the leaders in the house to postpone the consideration of the Nicaragua canal bill until the senate disposes of the Hay-Pauncefote treaty to modify the Clayton-Bulwer agreement. Mr. Hepburn of Iowa, who has the bill in charge, intends to make another effort tomorrow to have a time fixed for its consideration.

Outlook For Postal Legislation

The postoffice committees of the two houses have considered several of the many bills affecting the postal revenue, and sufficient progress has been made to warrant officials of the postoffice department to conclude that aside from action on the Loud bill to correct abuses of second class matter, and upon the bill to amend and recodify the laws affecting the organization of the department, nothing further will be accomplished in the way of postal legislation at this session.

EXPERT VIEW OF BIGAMY

Woes of Too Many Wives—Farnsworth's Reflections Based on Experience.

Chicago, March 5.—Walter L. Farnsworth, whose experiments in bigamy while he lived the free life of Chicago are to be followed by an enforced retirement from the world in the cloistered seclusion of Joliet, has already assumed a philosophical attitude in regard to his future.

He is devoting the last few days that remain to him, before he is taken away to don the convict's stripes in accordance with Judge Baker's sentence, to reflections on the woes of a quadruple matrimonial state and to scoring the wiles of women who use the matrimonial agencies to get men into their clutches. He has not much hope that his example or advice will do good to other unsuspecting men, but, "as for me I'll never be caught in that way again after I am free." He says:

"I broke the law, and I must go to the penitentiary. That's all right and proper, even though I was more sinned against than sinning.

"I must have been insane when I married these women. Everybody who knows the women says there can't be any other explanation of it.

"It's a queer world when the woman who persecutes a man and destroys his home can afterward prosecute him in court on account of acts which never would have happened if she had treated him as she should have done.

"As long as I lived with one of my wives I supported her and was better to her than her first husband had been. But when things came to such a pass that there was no longer any true marriage between us, when we did not love each other any more, then the legal relation was only a superficial one, and it was no violation of honor to ignore it.

"These matrimonial agencies are ruining thousands of men. They are run in the interest of adventuresses, who get men into positions where they force them to marry them. The women are to blame in such cases if the man does not do everything they want.

PREPARING FOR THE CENSUS

Kansas Woman Gives Birth to Eleven Children Within Five Years.

Wichita, Kan., March 5.—Jerry Simpson reports an extraordinary incident from his town, Medicine Lodge. He says a woman there has in the last five years given birth to twins, triplets, two single babies, and recently quadruplets. The mother and most of her children are well and strong.

RELIGIOUS DAILY IS BOOMING

Orders For Sheldon's Paper Swamp the Topeka Postoffice.

Topeka, Kan., March 5.—Already the Topeka postoffice and the office of the Daily Capital are swamped with the great demand for copies under Rev. Mr. Sheldon's management, which will begin March 13. Subscriptions for the Sheldon edition yesterday passed the 100,000 mark and there are indications that the rush has just begun.

At the close of business in the counting room at 10 o'clock Saturday night there was a stack of unopened mail that would fill a bushel measure. Today a wagonload of remittances for the religious edition was hauled to the counting room. The orders are increasing with every incoming mail and it would be impossible at this time to give an intelligent estimate of the total circulation of the edition. With the counting room force more than quadrupled it is barely possible to keep even with the rush of orders.

The resources of the Topeka postoffice were never before so heavily taxed and Postmaster Guthrie was compelled today to make a second requisition upon the postoffice department for help in handling the Sheldon edition.

MAY BE ANOTHER CLASH IN KENTUCKY

Governor Taylor is Shipping Guns, Ammunition and War Material to London, Ky.

Frankfort, Ky., March 5.—[Special Telegram]—The shipments of guns, ammunition, and other military paraphernalia from the arsenal here to London, was continued today. A full carload of war material was sent away. Republican leaders deny that Governor Taylor is preparing to issue a call convening the legislature in London in extra session, and say the guns are being shipped there to prevent the democratic officials from getting hold of the state arsenal.

STRIKE FAILED TO MATERIALIZE

Winter Weather in Chicago Prevented Outdoor Work and a Clash Is Avoided.

Chicago, March 5.—[Special Telegram]—The long anticipated clash between the union and non-union building trades workers scheduled to take place today, failed to materialize on account of the winter weather, which prevented resumption of work on the buildings.

TWENTY INJURED IN FREIGHT WRECK

Two Stock Trains Near Broadview, Ill., Collided Today—All Were Iowa Stockmen.

Broadview, Ill., March 5.—[Special Telegram]—In a wreck between two stock trains near here this morning twenty men were injured, Joseph Hobbs, stockman, Marcus, Iowa, and Frank McCall, brakeman, Freeport, Ill., are probably fatally injured. The remainder of the injured are Iowa stock men.

HILL WILL BE A DELEGATE

His Associates May Be Croker, Murphy and Augustus Van Wyck.

New York, March 5.—Unless the slate is broken, the delegates at large from New York to the democratic national convention in Kansas City will be David B. Hill of Albany county, Richard Croker of New York county, Edward Murphy of Rensselaer county, and August Van Wyck of Kings county. The slate convention, which will choose these delegates, it is said, will be held in Albany about the middle of May.

Any plan that may be under way to make W. J. Bryan's nomination for president difficult is being carefully concealed. Judge Van Wyck still has a few friends urging him for the presidency, but back of that is his candidacy for a second nomination for governor. The present program appears to be that the democrats shall go along with the Bryan tide if there appears to be no chance of stemming it and to keep the party united with the hope of being able to elect its state ticket this fall.

DIPHTHERIA AMONG RABBITS

Hundreds of the Animals Dying in Michigan and Northern Indiana.

St. Joseph, Mich., March 5.—Reports are received here from various points throughout the county and northern Indiana to the effect that hundreds of wild rabbits are dying from an unknown disease. Many of the leading hunters of the vicinity are of the opinion that the rabbits are suffering from epidemic of diphtheria. It is the opinion of hunters that the disease was imported from various points in Ohio, where rabbits have been suffering with the identical disease for the past two months.

Water Hard to Heat.

Water is the hardest of all substances to heat, with the single exception of hydrogen gas. The easiest two are mercury and lead, which stand in this respect on nearly the same footing.

HAY-PAUNCEFOTE TREATY IN DANGER

Republicans Fear Effect of Secret Alliance Bugaboo Upon People.

WAR IN SOUTH AMERICA

Two United States Battleships Ordered in Hot Haste to Nicaragua.

Report That War Has Broken Out Between That Country and Costa Rica

—Busy Week Promised For Congress—Porto Rican Bill, Currency Measure and the Quay Case Will be Debated—Some Hot Speeches are Expected From Both the House and Senate—To Coin Silver Bullion.

Washington, March 5.—[Special Telegram]—It is stated on excellent authority that the failure of the senate committee on foreign relations to report back the Hay-Pauncefote treaty is due to the wide differences between the republican members as to some clauses in the document. The supposition is that the republicans are divided owing to opposition to the treaty in the United States and the frequent charges that if a secret alliance has not already been formed with England that one soon will be. The democratic leaders claim as it now stands that the treaty has no show in the senate.

Another South American Rebellion

The warships Detroit and Marblehead were ordered today to proceed immediately to Central America, the Detroit on the east side, and the Marblehead on the west. The order was issued on information received by the state department of serious trouble between Nicaragua and Costa Rica.

The filibusters are endeavoring to invade Costa Rica from Nicaragua to seize the government. The Costa Rican soldiers have been sent to the borders to repel the invasion.

The Troubles in Idaho

Spooner's Philippine Bill

Senator Spooner's bill for the government of the Philippines was reported favorably to the senate. It vests all power in the president after peace is declared and until congress provides otherwise.

Sawyer Sells His Home

Washington, March 5.—Former Senator Sawyer of Wisconsin has just sold to H. C. Perkins of California, the beautiful home which he built here about ten years ago for his own use. The price was \$100,000, said to be just about cost. Mr. Sawyer has rented the property for some years past, and the income has given him only 2 per cent net on his investment. Mr. Sawyer is spending some time in Washington.

BUSY WEEK IN THE SENATE

Puerto Rican Bill, Currency Measure and Quay Case to Be Debated.

Washington, March 5.—The question of seating Senator Quay, the conference report on the currency bill, and the Puerto Rican government bill will divide the attention of the senate during the present week. By agreement the report on the currency bill will be voted upon at 4 o'clock Tuesday, and will have practically the undivided attention of the senate until that time, if there are senators who desire to speak upon it.

After Tuesday the Quay resolution will be the uppermost topic during the morning hour each day and the Puerto Rican bill for the remainder of the day. There are still several speeches to be made on the Quay resolution, among those who are to speak being Senators Penrose, Spooner, Perkins and Carter, favorable to Mr. Quay, and Senator Burrows in opposition.

The Puerto Rican bill will be debated at length. Senators Culberson, Turner, and Pettigrew will make set arguments against it on constitutional grounds, and Senators Nelson and Dewey will talk in support of it.

The house will devote this week to contested election cases. The debate on the Aldrich-Robbins case, which opened on Friday, will continue Tuesday and Wednesday. After it is disposed of the Wise-Young contest from Virginia will be taken up, and probably will consume the remainder of the week. In both cases the majority has reported against the sitting members, who are democrats, and the house probably will sustain the reports, so that by the end of the week the republican majority in the house will have been increased by two.

ELECTRIC CARS STOP FOR SEVERAL DAYS

Workmen Commenced This Morning the Remodeling of the Machinery and the Boiler.

Workmen commenced this morning the remodeling of the machinery and boilers at the Spring Brook power house of the Janesville Street Railway company. The boilers need extensive repairs. While the machinery will be thoroughly overhauled. The total expense as figured by Supt. Hurd, will be in the neighborhood of \$300.

Beloit and Janesville workmen have the contract. Just how long the riding public will be deprived of street car service remains to be seen. Motormen on the line state that in all probability the line will suspend business for two weeks. They figure on a shutdown of at least ten days. Car services will be greatly missed by many. Especially in this time of people residing in the outlying districts. In several of the leaf tobacco warehouses, located near the limits of the city, many men and women are employed, who for several weeks past have been patrons of the road. This class of people have found the car line a great convenience.

John Collingsworth, one of the local motormen, started a cheap fare bus this morning to be in operation till the line resumes business. For the coming summer season Supt. Hurd promises several improvements that will mean better summer service than has ever been afforded the citizens of Janesville.

KINGSLEY IS NOT ENGAGED

Chicago Man Will Not Serve Refreshments at the Party This Evening.

Louis G. Hancock's private masquerade will take place at the armory this evening. Smith's orchestra will play. Dancing at 8 o'clock. The report that Mr. Hancock had secured the services of Kingsley, the famous Chicago caterer, is denied. The party this evening promises to be a social success in all the word implies. Several guests have secured unique costumes. It is expected that the festivities will come to a close about 1 o'clock.

The vision of the stork is one which brightens the eyes and quickens the heart beat of every young wife.

Yet often the vision is never realized, and as the laughter of infant voices floats from without into the childless home the eyes sadden and the heart grows hungry.

It often happens that childlessness is due to conditions which may be corrected. Many women have found that the vitality and vigor imparted by Doctor Pierce's Favorite Prescription to the womanly organs, has been the one thing needful to fulfill the joy of motherhood. This famous medicine is not a cure-all, but a specialist's prescription, having as a single aim the cure of diseases peculiar to women.

Sick or weak women are invited to consult Dr. Pierce, Buffalo, N. Y., by letter, free of charge, thus avoiding the indefinite questions, offensive examinations, and local treatments, generally considered necessary by inexperienced practitioners. All letters are held as strictly private and sacredly confidential. Each answer is sent in a perfectly plain envelope.

There is neither alcohol nor other intoxicant contained in "Favorite Prescription," and it is absolutely free from opium, cocaine and all narcotic drugs.

"My wife was sick for over eight years," writes Albert H. Pille, Esq., of Attamont, Grundy County, Tenn. "She had uterine disease and was treated by two physicians and got no relief. At last I read, in one of your Memorandum Books which you sent me, about Dr. Pierce's medicine, and we decided to try his 'Favorite Prescription.' I sent to the drug store and got one bottle and the first dose gave ease and sleep. She had not slept any for three nights. Being sure that it would cure her I sent for five more bottles, and when she had taken the sixth bottle she was sound and well. We now have a fine boy at our house."

Dr. Pierce's Pleasant Pellets promote a healthy condition of the stomach.

Toledo and Detroit to Be Joined by a Road Worked on Storage System.

The capital stock has all been subscribed, and the company will be known as the Toledo & Detroit Rapid Transit company. The promoters are R. J. The road will be operated with the hot water storage system now in vogue on the New York Central and other eastern roads. E. H. Ryan and F. J. Brown of New York are also interested. Tandy, the president, is the inventor of the new process, which makes brick without burning, so that one day's product is ready for use on the next day. The company has bought an 800-acre tract at Lake Pepin, Wis., on which is being erected its factory, costing \$100,000. It is expected to make about 60,000 finished brick per day.

A flash followed and the husband, wife and three children were badly burned. Mrs. Mullens is dead, and it is thought the baby will die. Mullens and the other two members of the family will recover.

Some enlisted men of the Charleston are quoted in support of the charge. The navy department has forwarded the letter to Rear Admiral Watson at Manila, with instructions to investigate.

SEVERAL NEW MEMBERS JOIN

Twenty Were Added to the Presbyterian Church During Services Yesterday.

Communion services were honored yesterday at the Presbyterian church. A congregation was present that taxed the seating capacity of the edifice. During the service twenty new members joined the church. During the past year the records show a new membership of forty. This is a record that the members of the church may well feel proud of. Under the able leadership of the Rev. E. H. Pence the progress of the Presbyterian church has been rapid. Rev. Pence is an able preacher. His sermons have life to them that brings special interest touching on all live topics of the day. This is what the thinking public demands. He is making a record in his pastorate of this church.

Farmers' Co-operative Society of Rockland, Iowa, Holds Annual Meeting.

Mason City, Iowa, March 5.—The tenth annual meeting of the Farmers' Co-operative society of Rockland was held Saturday night. It is the largest society of its kind in the state, including a membership of 637. Five hundred and forty-six thousand dollars' worth of business was done during the year at an expense of only \$2,422. Seven hundred and seven bushels of grain were bought. The following resolution was unanimously adopted: "Whereas, The Agricultural Implement association of the state has taken measures to prevent this co-operation from purchasing farm implements; therefore be it

"Resolved, That we instruct our officers and board of directors to take the necessary steps for the prosecution by law of all who may be found engaged in such efforts."

SIBLEY GIVES UP HIS SALARY.

Pennsylvania Congressman Enriches Himself in His District.

Franklin, Pa., March 4.—Shortly after the election of Joseph Sibley, as congressman from the twenty-seventh district, announced that he would divide his salary for his two-year term between the five hospitals in his district. In fulfillment of this promise, the officials of the projected hospital in this city have received a check for \$1,000 from Congressman Sibley, and a check for the same amount was received by each of the hospitals at Oil City, Warren, Bradford and Kane. At the end of his term each hospital will have received \$2,000. While Mr. Sibley represented the Erie-Crawford district he took similar action with his salary, dividing it among the labor organizations of the district.

NO CROWN BECOMES A WOMAN

better than a crown of glorious hair. To attain beautiful hair is neither difficult or expensive. A fair trial of our preparations convinces.

Mrs. N. E. Copeland, Oakland, Kansas, writes:

"I have used the Seven Sutherland Sisters' Hair Grower and Scalp Cleaner for about two months and find that my hair has ceased falling out and is bright and healthy in appearance. Any inquiries will be cheerfully answered."

What this wonderful remedy has done for her it will do for anyone.

Sold by dealers everywhere.

BUT FEW BUYERS ARE SECURING LEAF

From Four to Seven Cents in the Bundle Seems to Be the Prevailing Figures.

In speaking of the local tobacco market the Farm and Home of this city says: "A few buyers are riding from this market and are picking up what can be purchased from 4 to 7 cents in the bundle. Some sections are nearly cleaned up, and before many weeks have passed, crops unsold will be very scarce in farmers' hands. The largest crop of tobacco in the farmers' hands is of the medium grades, the best and poorest grades, having been nearly all sold early in the season."

"It is estimated that less than 10 per cent. of the '99 crop is unsold. Deliveries are becoming less numerous, owing to the fact that a large part of the farmers have already delivered. Still every pleasant day many loads are seen on the streets."

"In old goods mail orders, small in size, but numerous in numbers, characterize the local market. Large scales are almost a thing of the past until the new crop is ready for the market. The assorting rooms are running full blast, with large forces."

HOW TO LIVE LONG

Is the subject of a poem written by the philosophical Pope Leo XIII, who has attained more years than his allotted three score and ten, in which he advises:

"Be temperate in eating and drink, and be temperate in sleep. That is the kind of meals we serve at all times, 'delicate, dairy fed, tender beef, lamb, pork, mutton, veal—nutritious, delicious and tempting. Our wagons will call daily for your order.'"

STYLES OF TODAY.

LINE THAT DOMINATE FIGURE AND FASHION.

The Point in Front—Curves All Relegated to the Back—Gathered Skirts. A Pretty Theater Waist—Sleeves of All Sorts.

A noticeable feature of all the latest models in waists is the point in front at the waist line. If it is not cut on the bodice itself, the belt is arranged to form a decided dip down directly in

front. This may portend nothing more than a renewed ambition to emulate the long, straight line from the bust to the hem of the skirt, or it may be a premonition of long pointed waists and their accompanying panniers.

The old idea of curving in at the waist line directly in front is entirely out of it this season, and everything which can be done, in the way of standing correctly, in the mode of fitting and special shaped corsets, to emphasize this outline is not neglected by the woman who has any ambition for stylish effect. All the curves are properly relegated to the back and hips, and if they are perfect from fashion's standpoint they are not at all pronounced, but just enough to give a graceful outline.

The skirt with a box plait in the back is especially desirable for evening gowns, and a fan shaped plaiting for gauze or net inserted at either side of this plait from the knee down gives the train a very pretty flare.

Rumors and shadows of gathered skirts have been floating around for some time, and they have materialized already among the gauzy evening gowns. Some of the latest models show the gathered skirts, but so far they are chiefly confined to evening dresses.

A pretty model shown for a theater waist is a useful one for using up rem-

nants, as the jacket can be of one material, the draped front, sash and upper sleeve of another and the lower sleeve of jetted lace. Crepe de chine and heavy lace for the bolero is a great combination. Scarfs with fringed ends are very popular for evening gowns of all kinds. Lace fichus for house gowns are quite the thing in black or white.

Evening sleeves are a diversified appendage which range in size from a mere strap over the shoulders to the limit of full length, according to the New York Sun, from which these illustrations and items of latest fashions are gleaned.

A Terrible Struggle With a Wolf.
An inhabitant of La Chabroulle, a small village in Dordogne, France, had a terrible struggle with a large wolf one or two nights ago. The man was awakened by howling round his house and understood that a wolf had come, as they frequently do when driven by hunger, to devour the watchdog. He took his gun and went out, when the wolf immediately came bounding towards him. M. Marcher fired both barrels of his gun into his assailant, which, nevertheless, still sprang at him. Finally he got the barrel of his gun into the brute's mouth, and, pressing it to the ground, finished it by kicks. The struggle lasted over ten minutes, and had another wolf been present, matters would have gone hard with M. Marcher.

Smoke Shells Suggested.
The great loss of life incurred by the English troops is mainly attributable to the charges they have had to make across open spaces in order to dislodge the enemy from the sheltering kopje. In order to minimize the death roll it has been suggested that just before a charge takes place smoke shells should be fired, which would temporarily hide the English soldiers.

THIS DAY IN HISTORY.

- 1534—Antonio Allegri Correggio, Italian painter, died; born 1494.
1770—Boston massacre; citizens killed by British soldiers. The Boston massacre had great influence in arousing popular feeling against British oppression. The immediate cause was resistance to the importation of articles subject to royal tax. The government, as a measure of vengeance upon "the insolent town of Boston," occupied the place with a military force under General Gage. On this date a collision took place between soldiers and citizens in which three of the latter were killed and eight wounded. All taxes were soon repealed except a slight one on tea.
1832—Isaac Imlay Hayes, arctic explorer, born in Chester county, Pa.; died 1881.
1880—Mary Louise Booth, American author and editor, died in New York; born 1831.
1880—Hippolyte Adolphe Taine, French historian and critic, died in Paris; born 1828.
1889—China leased Port Arthur and Taioan-Wan to Russia for 99 years.
1890—M. Wolf, American illustrator of note, died in New York city; born 1837.

THAT NEW RAILWAY.

The "Janesville and Southeastern Railway company" has been organized, and it is stated that the road will be built this summer. While the line will be virtually a portion of the Chicago, Milwaukee & St. Paul system, and the incorporators are interested in the St. Paul company, it is announced that the new line will not be the property of the present company, but a feeder for the St. Paul system. The route to be followed has been given many times, the line running from Libertyville, Ill., to Janesville, almost as straight as the crow would fly.

The building of this road means much to Janesville, as it will place the Bower City on another "through line" between Chicago and St. Paul, and will result in better service in both freight and passenger departments. It will also afford better means of reaching Janesville from a section of the country that at present has no railway facilities. Mail service in these townships, as well as all along the line, will be much improved, and there are other advantages too numerous to mention.

The problem of how to get in and out of the city is said to be quite a formidable one, although it is announced that the company will not find it necessary to lay any more lines through the city. The people can well afford to be liberal, however, if it becomes necessary to abandon present plans and run a new route, and no reasonable concession in the way of the use of streets, etc., should be refused. It is not likely that any such concessions will be asked for, but if they are, business judgment should be shown. Good shipping facilities are of vital importance to every manufacturing city, and no opportunity to improve Janesville's service in this respect, should be overlooked.

As we predicted some days ago, full measure of attention has been paid to The Hon. Lifty, The Hon. Dadd, and The Hon. Toronto James since the conclusion of their Janesville visit. The latest function held in their honor was managed by the Chicago grand jury, and every effort will be made to secure their acceptance of the entertainment offered to The Hon. Gentlemen by their Uncle Samuel. The invitations will be placed in the hands of government agents, and no expense will be spared in providing for the expected guests. A federal judge will preside at the formal gathering, high priced attorneys will speak, and United States marshals will be in charge of the service.

A Chicago man who is charged with having forty wives says he "doesn't claim to be an angel." We are glad that he makes this frank statement. If it were not for his denial no doubt the charge that he was an angel would be readily believed.

It is quite appropriate that The Janesville & Southeastern and the Chicago & Northwestern railroads should be competing lines. Are not both roads named in honor of competing cities?

Congressman Sibley of Pennsylvania, divides his salary among five hospitals in his district. This, perhaps, may also be considered "one of the evil effects of having rich men in politics."

The esteemed Chicago Tribune says President McKinley should have "better advisors" but modestly refrains from telling him where to find them.

Oshkosh is to have an advancement association. Janesville should do likewise. Nothing "comes to him who waits" these days.

"Old Dad Flynn" did commit synn, while "Lifty" did the shifty; but "Toronto Jymn" was in with hymn, and all were very thrifty.

"The Janesville and Southeastern Railway Company." Sounds quite businesslike, doesn't it?

It is perhaps perfectly natural that a one-legged negro should claim that he "was in hard luck."

AN EXPANSIONIST

Notable Speech at Ohio Banquet—President McKinley Drank No Wine.

New York, March 5.—At the banquet of the Ohio society Saturday night, when President McKinley was the guest of honor, expansion was the theme of all the speeches, and the most ardent and enthusiastic expansionist was a democrat—ex-Gov. Campbell of Columbus. Among other things he said:

"Our acquisitions to the east of us I never expected to see under the government and protection of the United states in my time. I looked on all of that as that as the heritage of our children. But I want the Hawaiian islands, the Philippines and Porto Rico and Cuba in good time. I want the government to hold all that it has got and to buy all that it can buy, and then I want for this country an artificial waterway that can be built without asking the consent of any nation in the world. (Tremendous applause.)

"I don't belong to the president's party, but I know him and want to give him a chance. Any man who can beat me for governor of Ohio by 92,000 votes has got to be a mighty good man."

The president drank no wine at the Ohio society banquet. He turned his glasses down at the beginning of the feast and used only apollinaris water.

Corruption in New York.
Bird S. Coler, the comptroller of the city of New York who was elected upon the Taunman ticket and was supposed to be a loyal party man, has been making some extraordinary speeches lately. In response to a toast at a club dinner Friday night he declared that there was much corruption and robbery under the present city government of which he is the second official in prominence, as under the Tweed regime and he was powerless to prevent it because of a conspiracy between the robbers in the city hall of New York and their friends in the state capitol at Albany. The robbery, he said, was legalized, and the legislature had refused to pass laws to prevent it.

REV. BRISTOL AGREES WITH THE BISHOP
Savage Attack on the Social 400 of New York—Most Corrupt Conditions.
New York, March 5.—A number of well known people have replied to Bishop Bowman's attack on society, and only one, the Rev. Frank M. Bristol, agrees with the bishop. Mr. Bristol says in part:

"I protest against the application of the term 'society' to that little set of little fools who contribute nothing but scandal to the annals of a community. The true society of America composed of the brains and virtue of her typical men and women, to be found in Washington, New York, Baltimore, Boston, Philadelphia, Chicago, and in every city, town and village of this country is worthy of all honor and respect.

"Husbands never had more virtuous wives, and wives truer husbands; sons never had sweeter, purer mothers nor mothers nobler, cleverer sons; brothers never had more chaste, intelligent sisters nor sisters more heroic, chivalrous, high minded brothers than they have today in our own America.

"Democracy is conducive to virtue. The most corrupt social conditions are found where class distinctions prevail, equality is denied and woman is robbed of her right, her freedom, her independence. The morally healthy condition of American society is due to the freedom, intelligence and exalted character of American womanhood.

"Who determine the character of society? No mere 400 shallow-brained coterie of any one community, who are living on the sweat of their fathers' and grandfathers' faces; not the men and women so-called who can shamelessly sit together during a performance of 'Sapho' or 'The Degenerates' presented by actors and actresses who are vainly trying to secure a virtuous reputation by breaking into American society; not the nameless few silly things who sell themselves and their fathers' fortunes to foreign degenerates for titles, which our virile, high-minded young Americans would not wipe their feet on."

EVERYBODY reads our "want" ads. Here's a hint, Mr. Business Man. They are cheap and good.

MISS M'KINLEY'S CHOICE.

The Man to Whom the President's Favorite Niece Is Engaged.

Miss Mabel McKinley, daughter of Abner McKinley and the favorite niece of President McKinley, is engaged to be married. The man of her choice is Hermannus Baer of Somerset, Pa. Mr. Baer is a young giant, standing 6 feet 2 inches in his stocking feet, and strong as a Sandow. Miss McKinley, while plump and apparently in good health, is slightly lame and is likely to become an invalid.

What led to the love match between the young couple cannot be told. The McKinley family have been going to Somerset during the summer for more than 15 years. They have a handsome residence and a well equipped stable, of which Abner McKinley is proud. Miss McKinley has known Hermannus

HERMANNUS BAER.
Baer, who is the son of a country lawyer, since childhood, but they were not on more than friendly terms until two years ago.

Miss McKinley was courted by many swells in official circles in Washington, including attaches of several foreign legations. She is said to have been something of a coquette.

Young Baer was born in Somerset and is 25 years of age. Up to two years ago he lived in the village. He was a drug clerk, and his father provided funds to train him as a pharmacist. After graduation Baer decided to become a physician. His father sent him to Jefferson college, Philadelphia, and this spring he will have completed his course of study.

To some of his friends he has written that he intends to settle in Somerset and practice his profession. His father is opposed to this, as he believes that his son will make a mark for himself if he goes into a more active life than that of a country practitioner.

Good Farm Homes Cheap

The Chicago & Northwestern Railway Company owns 550,000 acres of hard wood timber land in Northern Wisconsin, which lands are now being offered to actual settlers at low prices. The lands are well located, afford railway, postal, church and school advantages. These lands should not be confounded with the pine stumpage lands now offered in this market. Land that grows pine is invariably sandy.

The C. & N. W. Tracts grow hard wood and cannot be excelled by "openings" in the country.

The logs, posts and poles find ready sale at nearby saw mills, and when the land is once cleared excellent agricultural soil is the result.

Excursions will be run to these lands on Tuesday of each week, round trip tickets being sold at... \$6.71

They are for sale at my office. I should be glad to furnish printed matter and other information to all interested.

FARM RESIDENCE OF S. H. JOINER ROBBED

**BURGLAR SECURED ABOUT \$35
IN MONEY LAST NIGHT.**

**Mr. Joiner and His Hired Man Tracked
the Thief Into Janesville But Here
Lost the Trail—Police are Active in
Searching for the Robber—All Trace
of Them Lost.**

On Sunday morning at 1:30 o'clock, the residence of S. H. Joiner on the Emerald Grove road east of the city, was entered by a burglar and a silver watch, a pair of pants, pocket book, change purse, and contents of both, consisting of a few cents less than \$35.00 in cash, were taken. Several valuable papers were in the pocket book also.

The burglar had taken a horse blanket and wolf robe out of a buggy and made a bed in the stripping room of the tobacco shed and occupied it for a few hours previous to his entrance into the house.

He gained an entrance into the house through a door which was accidentally left unlocked for the second time this winter. He evidently was a professional in his line of business. He first went upstairs where the hired man slept and took his pants to the foot of the stairs and then left them, obtaining nothing. He then proceeded to investigate the dining room, and the bedroom where Mr. and Mrs. Joiner slept and obtained what is first mentioned.

Mr. Joiner's daughter, Mrs. McDaniels, was sleeping on a cot bed in the dining room, and twice during the burglar's operations he went and bent over her to ascertain if she was asleep or awake. She was perfectly conscious of his doing so, but wisely thought discretion the better part of valor, pretended to be asleep.

As soon as he left the room she gave the alarm, when Mr. Joiner and the hired man dressed as soon as possible and followed his fresh tracks in the new fallen snow towards Janesville for a quarter of a mile or so, then returned home and hitched up a horse and taking up the track followed it to a house on Eastern avenue between the street car power house and Monterey.

Thinking they had located their man they proceeded to the residence of Chief Hogan, and be in connection with Turnkey Samuel Brown proceeded to the house before spoken of. But they found to their disappointment that they were on the wrong trail. After a lengthy examination of tracks made in the vicinity of the Burr Robbins place and the street car power house, they found that they had got their fugitive's track mixed up with two other tracks, and they failed to again get the right trail, and so for the time being had to give up the search.

The local police are active in searching for the man and hope to lay hands on him soon.

COUNCIL MEETING HELD THIS EVENING

**LIVELY SESSION PROMISED BY
ALDERMEN.**

**Witnesses Have Been Summoned by the
City to Give Testimony in the Exist-
ing Trouble With Perry F. Brown—
Tobacco Men Claim Damages
Against the City.**

There promises to be a warm session of the common council this evening. The one important topic that will occupy the time of the city fathers will be the present existing trouble between Perry F. Brown and the city of Janesville. The city has summoned several witnesses to appear this evening and give testimony. The aldermen have asked Mr. Brown to appear and show cause why he should not be removed from the office of city engineer.

But the indications are that Mr. Brown will be noted for his absence this evening. He says that there is no use of his putting in an appearance when he has already resigned his position. The witnesses summoned this evening are: J. H. Watson, John Watson, George Yaho, William Boos, J. A. Fathers and C. A. Potter.

City Clerk Badger will also present the damage petition of Joseph E. Hoffmann, Alex E. Hoffman and C. L. Cuiton alleging damages to lost tobacco in the basement of the building at 322 West Milwaukee street on February 8, 1900. The dealers allege that the city is at fault on account of the grade of the street which resulted in water flowing into the basement instead of being carried away through proper sewers.

An ordinance providing for and changing the manner of electing a street commissioner for the city of Janesville will also be presented.

The municipal court report for the month of February will be presented.

WAS VERY WELL RECEIVED

**Splendid Entertainment Given by Miss
Mary Gilbert at Court Street Church**

The entertainment of sacred music and appropriate music given last evening by Miss Mary W. Gilbert was very well received. "The Burial of Moses" was listened to with marked attention. In the truly tender piece, "St. John the Angel," Miss Gilbert had even stronger hold upon her audience. "The Martyrs of Scotland" was enhanced in its rendition by the use of the violin in which "Jesus, Lover of My Soul" and "Nearer My God to Thee" were brought in very appropriately. The relation of a narrative of a dying child was told with marked power of pathos. After this, "Sometime" was recited. This piece brought out the great fact that sometime, somewhere, mystery will give place to comprehension. Sometimes we will understand. The whole program was peculiarly well in keeping with a Sunday evening occasion. It lifted to higher thought and inspired.

FRANK MOSHER ARRESTED

**Delavan Young Man Spent Sunday In the
Rock County Jail.**

Frank Mosher, a young man who of late has made his home with an uncle at Delavan, spent Sunday in the Rock county jail. Mosher is in charge of officers who are conveying him back to his former home in Hampton, Iowa, where he is charged with a crime. Mosher was easily traced to Delavan by the officers who learned that he was residing there with relatives. This is not the first time that Mosher has been placed under arrest.

TRAINS ARRIVED ON SCHEDULED TIME

**Snow Storm In This Section of the
State Was Not Heavy Enough
to Interfere With Traffic.**

Blizzard weather during the past twenty-four hours was not of sufficient importance to stop the running of trains into this city on scheduled time. On the Chicago, Milwaukee & St. Paul and the Chicago & Northwestern roads local officials report all passenger trains into Janesville on time. In the northern part of the state the storm was more severe and trains were blocked in many instances.

The fall of snow today was sufficient to cause good sleighing and local merchants are happy.

If the weather bureau has made no mistake in its forecast the entire country is likely to feel the effects of a blizzard before tomorrow night. Snow and cold wave are predicted for all the states between the Rockies and the Alleghenies, with the exception of Iowa and Tennessee.

The States of Ohio, Pennsylvania, West Virginia, Illinois, Indiana and Kentucky are to be treated to a storm with cold wave attachments, and snow trimmings.

Farther south, in Missouri, Oklahoma, Indian Territory, and Texas, the same storm is due before tomorrow night.

The blizzard struck Milwaukee yesterday morning with heavy fall of snow drifting badly.

Murderous Mutineers.

Advices from Australia say that in December thirteen of the crew of the New Zealand brigantine Ethel, which sailed from Broome, Western Australia, about the end of November with a cargo of lumber, mutinied when the vessel was near the Straits settlement. The mutineers scuttled the ship and murdered the captain and owner, John Alfred Riddle, his son, the mate, the carpenter and three of the crew. After the perpetration of this terrible crime the mutineers landed at Adul, quarreled among themselves, were betrayed by one of their number and arrested by a Dutch official in Madagascar, who seized all their plunder.

GREAT UNREST IN RUSSIA.

It Causes Counter-uneasiness in British Official Circles.

WAR WITH HER SEEMS CERTAIN

The Wily Diplomacy of St. Petersburg Has Never Before Been So Active and So Menacing—A Watchful Eye on Paris.

London, March 5.—It cannot be denied that growing uncertainty pervades official circles here. The thin garb of exultation over the capture of Cronje and his men fails to conceal the feeling that the future is pregnant of great possibilities. It is a long cry to Bloemfontein; much longer to Pretoria and to the close of hostilities in South Africa. The specter that haunts Downing street is Russia. The wily diplomacy of St. Petersburg has never before been so active and so menacing, and were it not that the dowager empress is unfriendly to Count Muraviev and his anti-British schemes, more exciting episodes than the Boer war might be looked for.

General discussion the latter part of the week just closed has mainly concerned Mr. Chamberlain's secret message to the Australian premier. It will be remembered that the colonial secretary inquired how many men the Australian colonies could send to South Africa, adding that it was the intention to withdraw certain troops from Roberts' command for service elsewhere. It is hardly necessary to say that it was never intended this dispatch should be given publicity. The annoying leakage occurred, however, at Melbourne, and since Thursday the diplomatic world has talked of nothing but the possible schemes that underlie the Chamberlain dispatch.

In certain quarters it is looked upon as a mere ballon d'essai to test the temper of the chancelleries, and to discover whether in reality there exists a movement antagonistic to England; but the general view in well-informed circles is that the Salisbury government actually intends to prepare for emergencies. In no place do emergencies exist save in Persia and the Afghanistan border; and it is in those directions that the official eye of England is turned. There has been no abatement of Muscovite aggression, and, though the Bunder Abbas affair has proved to be a canard, the number of British war craft hovering about the entrance of the Persian gulf is significant of the dread felt by the Marquis of Salisbury that his attention is likely to be disagreeably diverted from the campaign against the burghers. A watchful eye is also kept on the Quai d'Orsay in Paris. Delcasse's irritating operations in Constantinople, in connection with the czar's representative, are without doubt affecting the digestion of the ministry. Were it not that exhibition interests stand in the way, France, it is believed, would ere this have provoked a conflict with England that might have embroiled Europe.

The speech of President McKinley at the Ohio banquet in New York is coldly received. While it was expected that, should he refer to the matter, he would make a denial of any secret treaty with England, it was thought, at the same time, that some ardent expression would be uttered touching the Boer war.

This the president, however, carefully guarded against, and anti-American papers assert that it is a gross display of ingratitude. Reference is bitterly made to Britain's attitude in the Spanish war. It is recalled that England stood as a bulwark against European intervention in that affair, and the

statement is added that reciprocity in friendship might at least be shown in an assertion, however equivocal, that the Washington government favored the contention of Salisbury as against President Kruger and President Steyn. Closely analogous with disparagement of President McKinley's speech is public feeling in England and Scotland with reference to the United States. The general tone of the American press has been so pronouncedly pro-Boer that the people are beginning to look upon the Americans as enemies.

Incidentally it is known that Mr. Chamberlain has become jealous. He has almost dropped out of sight, while the commanders in South Africa occupy the foreground in the public news. While there is talk of dukedoms and peerages for Roberts, Kitchener and others, nobody has been so bold as to suggest a title for Chamberlain. Justly, the curses invoked on him are both loud and deep.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and when any of my family or myself begin to catch cold we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—D. S. Menzies, General Merchant and Farmer, Mattie, Bradford county, Pa. For sale by Smith's pharmacy, next to postoffice, kodak agents.

Bubonic Plague in Manila.

Washington, March 5.—The war department has just received from Manila several mailed reports of the outbreak of the bubonic plague in the Philippines. These reports show that the dreaded disease has been confined almost entirely to the Chinese. From Dec. 27 to Jan. 20, a period of three weeks, there were fourteen genuine cases of the plague, with eleven deaths. On Jan. 24 two more cases were reported by the sanitary inspectors of the health department. Both were Chinese. The reports show that the disease has not spread beyond Manila, and Gen. Otis has established a special sanitary department for the purpose of combating leprosy, as well as the plague.

Pope Favors Latin America.

Washington, March 5.—Pope Leo XIII. has recently granted an extraordinary dispensation regarding fasting and abstinence from meat in favor of Latin America, which includes Cuba and Puerto Rico, as well as all South and Central American countries. He gives the bishops of these countries authority, which they in turn can give to their priests, to dispense with all fasting and abstinence from meat except on a few days. In place of this some extra prayers are to be said and alms given for charitable works. The dispensation does not apply to Catholics in the United States.

Butcher Sues Armour & Co.

Sioux City, Iowa, March 5.—J. M. Ralya of Sioux City, a butcher, has filed a suit against Armour & Co. of Chicago, claiming damages of \$175,000 alleged to be due on account of the packing company's failure to fulfill the terms of a contract. An agent of the Armour Packing company made a contract in May, 1899, to furnish Ralya with fresh meat at a fixed price until Sept. 30, 1899. The price of pork loins went up to almost double the contract price about Aug. 1, and Ralya then began taking orders for a large amount which he says Armour refused to deliver to him.

Paper Trust is Denounced.

New Orleans, La., March 5.—The National Editorial association, which has been in session here since Wednesday, adjourned Saturday. Strong resolutions were adopted, denouncing the paper trust and calling upon congress to repeal the duty on paper and wood pulp, but the proposition to appoint a committee of seven editors—four republicans and three democrats—to press the anti-trust resolutions before that body was voted down by a vote of 141 to 140.

Will Apply for Divorce.

Cincinnati, Ohio, March 5.—Pretty Mrs. Moyes, formerly Bertha C. Warnken of Cumminsville, a Cincinnati suburb, who wedded Julius Moyes in New Orleans because he made her believe he was Capt. Clark of the battleship Texas, will come to Cincinnati and institute a suit for divorce. Prior to her trip to New Orleans Miss Warnken was employed as a saleswoman in a large Cincinnati department store.

SEE DANGER IN THE BILL.

Republican Leaders Dread Puerto Rican Muddle.

PROTESTS ARE POURING IN.

Hostile Attitude of the Country is Causing Great Uneasiness in Washington—Little Hope That the Senate Will Defeat the Measure.

Washington, March 5.—Echoes from the middle west are resounding through Washington, and are causing much uneasiness and uncertainty among republican leaders.

The attitude of the conservative republican newspapers in Chicago, Indianapolis, St. Paul and other trade and thought centers in the Mississippi valley has brought on a mood of deliberation and discussion among congressmen and senators that is most interesting to contemplate.

The fact is, the party leaders who are in touch with the growing sentiment of the middle western states, not to mention New England, are becoming alarmed. Political generals from all parts of the country are heading this way, and a few have already arrived on the scene to "see the show from a front seat." They say they cannot imagine what has struck the republican representatives who forced the obnoxious tariff bill through the house; they are in a quandary, and are terrified at the hubbub and slew being kicked up by the constituents of republican congressmen who are about to go before the people for re-election.

Of all the states in the middle west from which the most startling news comes, Indiana now occupies the center of the stage. Charles S. Hernley of Newcastle, chairman of the republican state committee of the Hoosier state, has just reached the capital on a trip of investigation and inquiry. Mr. Hernley is astounded at the convulsions now rolling over Indiana, and is fearful for results next November. He is so thoroughly scared that he refused to say a word referring to Puerto Rico or a tariff duty on Puerto Rican goods.

Mr. Hernley is busy with the Indiana contingent in congress. He is here feeling the public pulse and trying to cast a horoscope of the political heavens after next November has come and gone. He is telling to eager ears the story of absolute dissatisfaction rampant among the republicans of Indiana, and on dropping this hint leaves the congressman or senator, as the case may be, to his own serious thoughts.

As for the Indiana republican congressmen, they are in a state of solicitude that would be humorous if it did not mean so much to the party in general. They are pulling their hair among themselves and trying to convince each other that "the way I voted was right and your way is wrong." Judge Crumpacker is apparently the most serene Hoosier statesman in town. He is listening to the salvos of praise and hearing the faint echoes of the commendation that trickles this way from his home state.

The same may be said of Charles E. Littlefield of Maine. Republicans and democrats the country over are sending him congratulations. His home state, he said, is with him.

Mr. Lorimer of Illinois, who worked night and day against the bill, is also in receipt of hundreds of letters and telegrams. Mr. Lorimer does not want to forecast at this moment what effect the Puerto Rican legislation will have on Illinois, but is firmly grounded in his opinion that the course taken by the house majority was most unfortunate.

Yet in the face of popular will, as reflected in the city and country press of the middle western and New England states, there is no well-defined plan on foot to defeat the tariff bill in the senate. Such party leaders as Payne of New York, Hopkins of Illinois, Dazell of Pennsylvania and in the senate Hanna, Foraker, Spooner, Davis and others are claiming a "safe majority" for the 15 per cent tariff scheme in the upper house. Those close to President McKinley say that he personally desires the bill to receive a good majority in the senate. They say he will readily sign it, and that it will become a law within a short time.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany, (N. Y.) dairyman called at a drug store there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come as the child was much better. The druggist, Mr. Otto Sholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. THERE ARE MORE WRECKS CAUSED BY THE KIDNEYS THAN BY ALL THE DANGERS OF TRAVEL.

KID-NE-IDS

are the little health savers that keep the kidneys off the rocks of disease.

Any physician will tell you that the vast majority of the diseases, and sicknesses that humanity suffers are caused either directly or indirectly by the kidneys. They seem to be that fountain head from which the little stream of disease begins that eventually makes a wreck of the constitution and ends in death.

Disordered kidneys are first indicated by pains in the back, distress or fullness after eating, scanty or scalding urine, weakness and chills, pains in the joints, nervousness, sleeplessness, loss of vitality, swelling in limbs or body or both, and sediment in the urine.

Kid-ne-ids are little yellow tablets, easy to take, but wonderful in results. They are never sold in less quantities than a box for 50 cents. The first dose often makes you feel better at once. A repetition of the dose will eventually restore health to your kidneys.

Morrow's Liverax cures constipation, biliousness and costiveness. Sells for 25 cents a box at all drug stores.

Kid-ne-ids and Liverax, manufactured by JOHN MORROW & CO., CHEMISTS, SPRINGFIELD, OHIO.

Mr. John Kohman, works at the Bain Wagon Factory, who lives at 316 Division street, Kenosha, Wis., says: "I suffered from disordered kidneys for some time past. I had a dull heavy pain across my kidneys and it hurt my back to bend over or straighten up quickly. My urine was of a dark red color. I heard about Morrow's Kid-ne-ids and secured a package and took them according to directions, and in three days was completely relieved of kidney backache, and restored my urine to its natural color. I will continue to use Kid-ne-ids and will recommend them to my fellow workmen." At all drug stores and the People's Drug Co.

KNOX IS AFTER THE BOERS

Reported to Be Pursuing the Forces Which Left Ladysmith.

BURGHERS' ORDERLY RETREAT.

Resisters Sent Off Three Trains and Then Blew Up the Bridges Behind Them—Gen. Cronje Is Aboard the Doris.

London, March 5.—A dispatch to the Daily Graphic, sent from Ladysmith Thursday, says that on March 1 Gen. Knox with a brigade started in pursuit of the retreating enemy. There was no confusion apparent in their retreat. They sent off three trains, and then blew up the bridges.

There is practically a complete absence of news from the front, which is interpreted as due to further operations being about. Belated accounts of the relief of Ladysmith add nothing to what has already been cabled. The statement of the Sun correspondent that the men are only able to march a short distance gives a most vivid idea of the condition of the garrison. One correspondent states that the Boers' Long Tom on Buiwana hill was abandoned, the last rounds of the British naval guns preventing its removal.

There is not the slightest indication of what Gen. Buller's next movement will be, his pursuit of the retreating enemy with cavalry and mounted infantry being nothing more than the completion of the relief of the town.

The only news of active operations comes from northern Cape Colony. Gen. Brabant, with the colonial mounted troops, expelled the Boers from Lauschnaghe's nek, but was not sufficiently strong to push ahead any further. He occupied the Boer positions, and later repulsed an attempt of the enemy to retake them. The British losses were two killed and eight wounded.

Gen. Gatacre on Friday made a reconnaissance in force in the direction of Stormberg. He retired with no casualties, after locating the enemy's position, where they had two guns. His object probably was to prevent the Boers at Stormberg from interfering with Gen. Brabant's campaign.

The political situation in Cape Colony is still very much perturbed. At Graaf Reinet Saturday night a few loyalists who were celebrating the relief of Ladysmith were attacked by a large number of Dutch, and several persons, including a lady, were injured. The loyalists are asking for military protection.

A dispatch from Oosfontein, dated March 3, says that Gen. French made a reconnaissance in force and encountered the enemy Saturday. The Boers occupied a table-shaped kopje. Shots were exchanged.

Reports from the Orange river and elsewhere describe the Boer prisoners taken at Paardeberg as cheerful while on route to Cape Town. They waved their hands to the British troops, and were anxious to get into the pictures that were being taken by the ubiquitous photographers. The British soldiers were ready and willing to perform services for them, and greeted them with smiles, which the Boers reciprocated.

The Standard's Cape Town correspondent, telegraphing under date of Saturday, says that the Griqualand rebels have been re-enforced by 600 Dutch in the Prieska district. They have occupied Kenhardt, 100 miles west of Prieska, after a sharp conflict with Bastard Kaffirs, who fought until the magistrate ordered them to desist. Four hundred refugees from Kenhardt have reached Carnarvon. The rebels with three guns, are now marching toward Upington, where the Bastard Kaffirs are preparing to resist them.

The queen has abandoned her proposed visit to Bordighera. It is reported that she will visit London Thursday. She will drive from Paddington station to Buckingham palace, when it is expected she will be given a great ovation.

A. R. De Fluert, editor of the Journal, Doylestown, Ohio, suffered for a number of years from rheumatism in his right shoulder and side. He says: "My right arm at times was entirely useless. I tried Chamberlain's Pain Balm, and was surprised to receive relief almost immediately. The Pain Balm has been a constant companion of mine ever since and it never fails." Says Kaiser Did Not Cable. Berlin, March 5.—The Lokal Anzeiger states authoritatively that Emperor William has neither congratulated Queen Victoria nor any one else on the British successes in South Africa.

Offensive Cartoons Seized. Vienna, March 5.—The procurator has ordered the seizure of offensive anti-English cartoons, especially the numerous post cards of this character, which are made in Germany.

To Ship Horses for British. Vienna, March 5.—Over a thousand horses purchased in Hungary for the use of the British army will be shipped to South Africa during this week.

Over 4,000,000 Destitute. London, March 5.—Lord Curzon, viceroy of India, cables regarding the famine in that country that there is no change of any importance in the situation. The famine is still spreading and relief work is commencing in Madras. It is reported that the outlook is very gloomy. Lord Curzon gives a total of 5,374,000 persons receiving relief daily from the government.

TO COIN THE SEIGNORAGE.

Preparations for Just Coinage Under Way.

Washington, March 5.—It is the intention of the treasury department, as soon as the pending financial bill becomes a law, to expedite as fast as possible the coinage of the silver bullion purchased under the Sherman act still remaining in the treasury.

There is still on hand bullion purchased under this act costing \$78,000,000, and represented by that amount of treasury notes outstanding. The department has been coining this bullion into dollars at the rate of \$1,800,000 a month. The financial bill authorizes the coinage of enough of this bullion into subsidiary coins to bring the total subsidiary coinage up to \$100,000,000.

This will require about \$25,000,000 in subsidiary coins. In addition to this the department proposes to increase the coinage of silver dollars to \$4,000,000 a month, and the effect will be to have all this bullion coined and all treasury notes retired within a year and a half.

PLANS TO AID BOERS.

Princess Salm Salm Tells of Her Ambulance Corps Project.

Chicago, March 5.—Princess Salm Salm of Karlsruhe, Germany, famous for her services as a nurse in the civil war, in the war against the Maximilian government in Mexico and in the Franco-Prussian war, arrived in Chicago Sunday with the purpose of organizing a hospital corps for the Boer army. The princess expects to procure the funds for the hospital corps by appeals to the people of Chicago alone. It is said that individuals have offered to contribute the money necessary for the enterprise, but that their offers have been refused, because the princess preferred to have the corps supported by the people of Chicago as a whole, and to this end she expects to call a public meeting for the latter part of the week, when she will make a personal appeal for funds and volunteers for the work. To help along the movement an admission fee of \$1 will probably be charged.

The German Gretta Green.

The German "Gretta Green" came to an end on the same day as the German nineteenth century. On Jan. 1, 1900, the marriages without previous banns or public askings, so long in practice on the island of Heligoland, were declared from thenceforth illegal. During the last week of the old year, according to a Hamburg correspondent, the Heligoland steamer Silvana carried to the island quite a shoal of young couples who were determined to avail themselves of its privilege or "sudden marriages" before it was too late. On New Year's Day, 1900, the last cargo of bridal pairs married in haste took ship for their homes on the mainland.

DYSPEPSIA

AND OTHER STOMACH TROUBLES

Are primarily the cause of nearly all diseases. Most people have experienced ailments of this kind. Overloading the stomach, strong stimulants, unwholesome food, irregularities in eating, impure air, and the want of exercise are the principal causes. When the stomach becomes unable to perform its proper function a portion of the food is left in the stomach to ferment and decompose, and then taken into the blood. This, of course, does not furnish the supply of nourishment that the body needs—hence, disease. To cure these diseases the cause must be stopped and the worn out tissues must be rebuilt.

Magnetic Healing

Will help nature to restore the broken down parts and make a permanent cure. Here is one case we point to with pride:

CURED AFTER 25 YEARS.

"PROF. DENNIS—Since taking treatment of you for Catarrh of the Stomach of 25 years' standing I can say that I have been cured. Academy St., Janesville, Wis. Dated Feb. 27, 1900.

Mrs. Dennis, having made a thorough study of the Weltmer Method of Magnetic Healing, is now prepared to treat ladies.
